Education

University of Houston

Bachelor of Science in Computer Science, Minor in Mathematics

August 2024 - Dec. 2027

GPA: 3.65

Coursework: Object-Oriented Programming, Data Structures/Algorithms, Database Systems, Machine Learning, Statistics, Digital Image Processing

Wharton County Junior College

Associate of Science in Computer Science

August 2021 - May 2024

GPA: 3.79

Projects

Full-Stack Restaurant POS System | MySQL, SQL, Next.js, Express.js, JWT

March 2026 - April 2026

- Lead a group of 5 in developing a multi-role, restaurant POS and operations platform with employee role-based access, order/kitchen/checkout workflows, back-office management, reporting and cloud deployment.
- Enforced business rules across orders, staffing, inventory, and payments to reduce invalid states.
- Implemented end-to-end auth and authorization flows with JWTs and role-aware middleware across a deployed production-like full-stack application.

CougarAI Website | TypeScript, React.js, TailwindCSS, Flask, Google API, Psycopy2

Dec. 2025 - Aug. 2026

- Modernized the club website by implementing a modular React and Tailwind design, increasing usability, responsiveness, and code maintainability
- Integrated Google Calendar functionality to enable real-time event scheduling, automated updates, and seamless user access to organization activities
- Implemented Google OAuth authentication to streamline secure user sign-in and improve the login experience

University Marketplace App | React.js, Docker, PostgreSQL, JWT

October 2025 - Dec. 2025

- Created a marketplace application for UH students and alumni to buy and sell used books and furniture.
- Secure login and registration for users using JWT-based authentication for secure API requests

Personal Portfolio Website | HTML, CSS, Javascript

May 2026 - May 2026

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and experience
- Built interactive project galleries and structured case-study sections using HTML, CSS, and JavaScript
- Centralized GitHub links, resume content, and contact information into a polished platform for personal branding

Leadership

Lead Webmaster

Dec 2025 - Present

CougarAI

Houston, TX

- Collaborate with a team of four software engineers to redesign and optimize the organization's full-stack website and bot, improving scalability, UI/UX clarity, and code maintainability for 200+ active users.
- Work closely with officers to gather requirements and implement features that support events, communication, and member engagement.
